Aesculap Neurosurgery

## Welcome

We are delighted to present you our Aesculap main catalog for neurosurgery with our current product portfolio, including plenty of new products.

Aesculap Global Headquarter in Tuttlingen, Germany

Aesculap was founded in 1867 by Gottfried Jetter, a cutler by trade. Over more than 145 years, the small workshop and forge for production of surgical instruments in Tuttlingen, Germany developed into a global operation enjoying international success. Today, Aesculap is one of the four divisions of the B. Braun Melsungen AG, Germany.

Gottfried Jetter (fourth from right) founded Aesculap in 1867

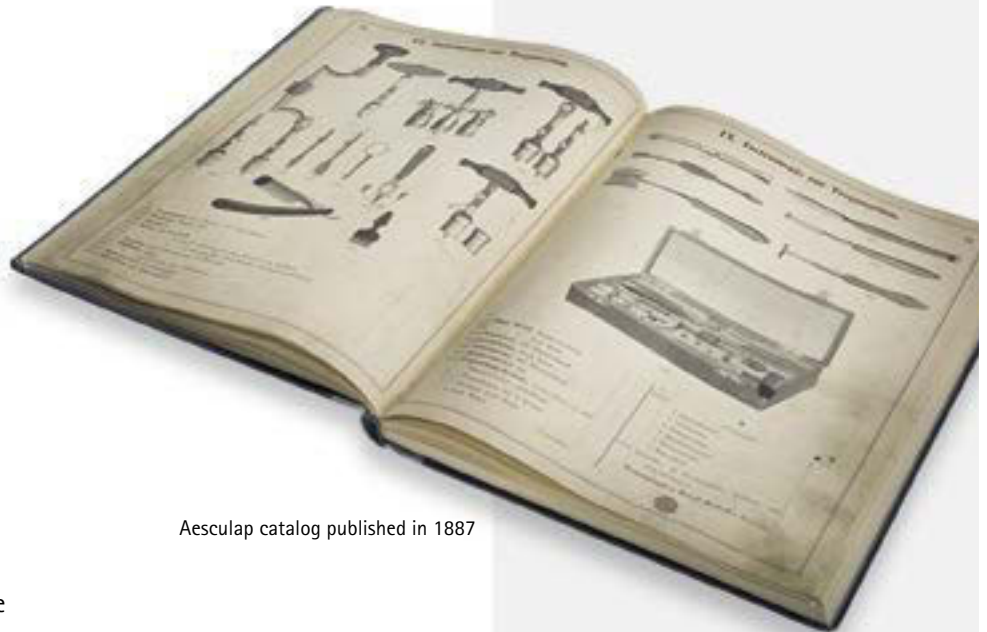

Neurosurgery has always been an important field of activity for Aesculap. The close cooperation and open dialog with neurosurgeons all over the world is a central element of our corporate philosophy, "Sharing Expertise".

Neurosurgical instruments appeared even in the first-ever Aesculap catalogs of 1887. Among the milestones for Aesculap Neurosurgery were the electric power system for trepanation (1935), the YASARGIL® aneurysm clips (1968), the pneumatic drill (1969), the CranioFix® clamp system for bone flap fixation (1997), the programmable MIETHKE® gravitational valve proGAV® (2003) and the KAIRison® pneumatic bone punch (2008).

The words "Made by Aesculap" have gained worldwide recognition as a synonym for unrivaled quality and reliability. Each of our products is characterized by functionality and continuity. Through innovative new products and continuous advancement of existing products, we make sure that surgical interventions of the central nervous system are becoming ever safer and more efficient.

Still, we see ourselves not just as a manufacturer and supplier of products for the neurosurgical operating room. We see ourselves also as your everyday partner, supporting you with individual advice and service as well as training and updating opportunities through the global Aesculap Academy. Your success is our success. Therefore, our Aesculap representatives are there to meet and exceed your needs no matter where in the world you may find yourself needing to conduct neurosurgery. In fact you will find this level of service in more than 60 countries around the world today.

We are conscious of you and therefore our immense responsibility for the well-

Aesculap catalog published in 1887

KAIRison®  
pneumatic bone punch

being of the patient. And we are happy and proud that our products are helping to restore the quality of their lives. It is always a wonderful feeling to be of help in this endeavor, even if the contribution of our products is only a small one.

We look forward to joining you in shaping the future of neurosurgery. As a company we are large enough to be a world leader among the suppliers for neurosurgery. At the same time, we are small enough to be involved at the personal level with your specific requirements. This is our pride and obligation: to be there for you as a personal partner and in doing so, be there for your patients as well. We are happy to share our expertise with you!

## Herzlich Willkommen

Wir freuen uns, Ihnen auf den folgenden Seiten unser aktuelles Produktprogramm für die Neurochirurgie mit einer Fülle an Neuheiten zu präsentieren.

Stammsitz von Aesculap in Tuttlingen, Deutschland

Gottfried Jetter, ein gelernter Messerschmied, gründete Aesculap im Jahre 1867. Nach über 145 Jahren hat sich die kleine Werkstatt und Instrumentenschmiede aus Tuttlingen zu einem weltweit operierenden und international erfolgreichen Unternehmen entwickelt. Aesculap ist heute eine der vier Sparten der B. Braun Melsungen AG.

Gottfried Jetter (vierter von rechts) gründete Aesculap im Jahre 1867

Die Neurochirurgie war schon immer ein wichtiges Betätigungsfeld von Aesculap. Die enge Zusammenarbeit und der offene Dialog mit Neurochirurgen aus aller Welt war und ist ein zentraler Bestandteil unserer Unternehmensphilosophie „Sharing Expertise“.

Bereits in den ersten Katalogen von Aesculap aus dem Jahre 1887 sind neurochirurgische Instrumente abgebildet. Einige weitere Meilensteine von Aesculap für die Neurochirurgie waren u.a. das elektrische Motorensystem für die Trepanation (1935), die YASARGIL® Aneurysmenclips (1968), der Druckluft-Motor (1969), das CranioFix® Klammer-system zur Knochendeckelfixierung (1997), das programmierbare MIETHKE® Gravitationsventil proGAV® (2003) oder die pneumatische Knochenstanze KAIRison® (2008).

Der Begriff „Made by Aesculap“ hat sich in den Operationssälen weltweit als Synonym für einzigartige Qualität und Zuverlässigkeit durchgesetzt. Funktionalität und Kontinuität kennzeichnen jedes unserer Produkte. Durch innovative Neuheiten und permanente Weiterentwicklung bestehender Produkte gewährleisten wir, Operationen am zentralen Nervensystem sicherer und effizienter zu gestalten.

Dabei verstehen wir uns jedoch nicht nur als Hersteller und Lieferant von Produkten für den neurochirurgischen Operationssaal. Wir sind Ihr Partner, der Ihnen täglich mit persönlicher Beratung und Service sowie Aus- und Weiterbildungsangeboten durch die weltweite Aesculap Akademie zur Seite steht. Ihr Erfolg ist unser Erfolg. Dafür stehen Ihnen Aesculap Ansprechpartner in über 60 Ländern dieser Welt täglich gerne zur Verfügung.

Aesculap Katalog aus dem Jahre 1887

Wir sind uns der hohen Verantwortung unseres Handelns zum Wohle des Patienten bewusst. Wir freuen uns und sind stolz darauf, dass unsere Produkte helfen, Patienten ihre Lebensqualität wieder zurück zu geben. Auch wenn unsere Produkte hierzu vielleicht nur einen kleinen Beitrag leisten, ist es dennoch ein wunderbares Gefühl geholfen zu haben!

Wir freuen uns darauf, die Zukunft der Neurochirurgie mit Ihnen zu gestalten. Wir sind als Unternehmen groß genug, um ein weltweit führender Anbieter in der Neurochirurgie zu sein. Wir sind aber doch noch klein genug, um uns persönlich um Ihr Anliegen zu kümmern. Darauf sind wir stolz und es ist für uns Verpflichtung zugleich. Wir sind für Sie persönlich und damit auch für Ihre Patienten als Partner da. Wir freuen uns, mit Ihnen unser Wissen zu teilen!

KAIRison®  
Pneumatische Knochenstanze

<b>A</b>			
<b>AACHEN</b> pattern, brain spatula	93	Assembly, KAIRison® pneumatic bone punch	675
Absorbable CranioFix® clamps	518	KERRISON bone punches	674
ABC2, anterior cervical plating	604, 605	MINOP® instruments	676, 677
Accessories for, GILSBACH combined retractor	98-102,105	XS instruments	678, 679
HF surgical unit	288, 290, 292	<b>ASSMUS</b> , nerve stripper	235
irrigation unit	291, 292, 549	<b>AUSTIN</b> , micro suture tying forceps	178
JET irrigation unit	291	AVM clip appliers	513
LEYLA self-retaining retractor	94-97	Noir®, EC/IC Bypass Set	217
power systems	602	AVM micro clips	512
shunt systems	453-472, 541		
activC® Flat, cervical motion preservation	614, 615	<b>B</b>	
activL®, lumbar motion preservation	632, 633	<b>BARRAQUER</b> , micro needle holders	203
activ O, spinal approach system	646, 647	self-retaining retractors	108
Adapters, for holding devices	578, 582, 583	<b>BARRON</b> , suction cannulas	278
for holding devices, M-TRAC® und UNITRAC®	582, 583	Bayonet chisels	254
for suction	277	<b>BECK</b> , rongeurs, non-detachable	24
Adjusting key	487, 505	<b>BECKMANN</b> , self-retaining laminectomy retractors	122
Adjustment disc set, proGAV®	379	<b>BECKMANN-ADSON</b> , self-retaining laminectomy retractors	120
Adjustment discs, proGAV®	379	<b>BELLUCCI</b> , suction cannula set	279
Adjustment tool, proGAV®	378	<b>BEYER</b> , bone rongeurs	33
proGAV 2.0®	358	<b>BIEMER</b> , micro scissors	153
proSA®	410	vessel spreader	235
<b>ADSON</b> , bone rongeurs	38	Biopsy forceps	554, 555, 571
burrs	43	MINOP®	554-556, 563, 571, 574
forceps	188	MINOP® InVent shaft instruments	570
nerve and vessel hooks	228	Bipolar cables	292, 314, 322-325, 548, 557, 572
periosteal elevator	63	Bipolar coagulation forceps	302, 303, 305, 306, 308-310, 312, 315-320
self-retaining laminectomy retractors	119, 121	Rose Gold	294, 295
suction cannulas	279, 281	Sintram, Non-Stick	297, 298
<b>ADSON-BABY</b> , self-retaining retractors	113	T-	270, 313
<b>AL MEFTY</b> , chisel	220	Bipolar electro-surgical unit	288, 290
dissectors	219, 220	Bipolar forceps	270, 302, 313
ligature needle	220	Bipolar HF surgical unit, accessories for	288, 290
skull base instruments, storage	221, 655	Bipolar single use coagulation forceps, Rose Gold	296
spoons	219	BiProtect Anti Collateral Damage Forceps	300
suction cannulas	220	<b>BLUMENTHAL</b> , bone rongeurs	32
<b>ALEXANDER</b> , bone rongeurs	33	Bone curettes	77, 78, 80-83
<b>ALLENBERG</b> , carotid retractors	111	Bone graft holder and impactor	90
<b>ALLPORT</b> , self-retaining retractors	108	Bone levers	69-71, 75
<b>ALM</b> , self-retaining retractors	107	Bone punch, pneumatic	2, 3
<b>ANDERSON-ADSON</b> , self-retaining laminectomy retractors	118	assembly	675
Aneurysm clip tray	510, 658	disassembly	675
Aneurysm clips	474-485, 492-503	Bone punches, assembly	674
Angled neuroscopes	576, 577	disassembly	674
Anti fog solution, sterile, endoscopes	541	detachable	8, 9
Antrum punch	254	Noir®	10
Applicators, ScalpFix®	538	non-detachable	6, 7, 11
Appliers, AVM, EC/IC Bypass Set, Noir®	217	storage racks	651
clip	486-490, 504-508, 513, 514	Bone rasps, DUROGRIP®	55
clip, long	501	Bone rongeurs	31-42
CranioFix®2	516	Bone wax	537
Applying forceps for RANEY clips	539	Bone wax stick	537
Arcadius <sup>XP</sup> L®, stand-alone lumbar interbody fusion	624, 625		
A-Space, lumbar interbody fusion	626, 627		

	Page		Page
<b>BONNER MODELL</b> , micro suture tying forceps	178	CCR, spinal approach system	634, 635
<b>BOSE</b> , self-retaining retractors	106	CCR-XX, spinal approach system	636, 637
Brain spatulas	92, 93	<b>CERULLO</b> , suction regulating valve	276
Noir®	91	Check-mate, <i>proGAV</i> ®	358, 379
silicone, single use	91, 548	<i>proSA</i> ®	411
<b>BRUNS</b> , bone curettes	80	CeSPACE®, cervical interbody fusion	612, 613
<b>BÜCHS</b> , periosteal elevator	60	Chisels	49, 220
Burrhole deflectors, <b>MIETHKE</b> shunt systems	456	bayonet	254
Burrhole ports, <b>MIETHKE</b> shunt systems	457	osteophytes	87
Burrhole protection forceps	44	<b>CITELLI</b> , punches	13
Burrhole reservoirs, <b>MIETHKE</b> shunt systems	459-463	<b>CITELLI-BEYER</b> , punches	14
